Experience Summary

Experienced Software Engineer with over 12 years of expertise in full-stack software development, specializing in delivering scalable and robust solutions. Proficient in C#, .NET Core, ASP.NET MVC, Azure, Microservices, Web API, EF Core, ADO.NET, Angular, JavaScript, jQuery, HTML, XML, CSS, and SQL Server. Demonstrated expertise in system integration, reporting, product development, and Distributor Management Systems (DMS). Skilled in managing offshore and onshore teams, ensuring seamless collaboration and timely project delivery. Adept at overseeing the entire software development lifecycle, from requirements gathering to deployment and live support. Successfully executed projects across various domains, including e-commerce, ticketing systems, pharmaceuticals, and product development, displaying strong problem-solving and leadership capabilities.

Skill Set

| | |
|--|--|
| Programming and scripting languages | C#, JavaScript, TypeScript, T-SQL |
| Web technologies | .NET Core, MVC5, WebApi, Angular, jQuery, HTML, CSS, Unit testing: NUnit |
| Architectural Patterns | N-Tier / 3-Tier, Onion/clean Arch, DDD, TDD, CQRS, Microservices |
| Frameworks, tools, and libraries | EF Core, Azure PaaS, VS 2017-22, VS Code, GIT |
| Reporting Tools | SSRS, DevExpress |
| System Integration | SSIS |
| Databases | SQL Server 2014, 16,19 |
| Project management tools | Azure DevOps, Bitbucket, Jira |

Education

- **Master of Computer Applications (MCA)**
ABES Engineering College, Ghaziabad, UPTU Lucknow, India
Year of Completion: 2011
- **Bachelor of Arts (BA)**
Chhatrapati Shahu Ji Maharaj Kanpur University, Kanpur, India
Year of Completion: 2008

Certifications

- [Microsoft Certified: Azure Developer Associate \(AZ-204\)](#)
- [Microsoft Certified: Azure Fundamentals\(AZ-900\)](#)
- [Microsoft Certified: Azure AI Fundamentals\(AI-900\)](#)

Professional Experience

- **Accenture SDN Bhd, Kuala Lumpur, Malaysia**
Packaged App Development Specialist (Team Lead)
December 2021 – Present
Leading application development projects, managing offshore and onshore teams, and delivering scalable software solutions. Driving technical excellence, overseeing team performance, and ensuring timely delivery of critical deliverables.
Senior System Analyst
April 2017 – November 2021
Managed complex software development initiatives, coordinating between global teams and stakeholders. Delivered innovative solutions tailored to business needs and upheld high-quality standards in project execution.
- **Accenture India**
Senior Application Analyst
November 2016 – March 2017
Spearheaded application development efforts for key clients, leveraging software architecture and team leadership expertise. Contributed to seamless offshore and onshore collaboration.
- **Binary Semantics Ltd, Gurugram, India**
Senior Program Analyst
October 2016 – October 2017
Delivered high-quality software solutions using .NET technologies, database systems, and system integration methodologies. Collaborated with diverse teams for smooth project execution and timely delivery.
- **Chetu India Pvt Ltd, Noida, India**
Software Engineer
August 2014 – September 2015
Designed and developed enterprise-level applications, optimising performance and enhancing user satisfaction through innovative software solutions.
- **Pearson Education India Pvt Ltd, Noida, India**
Software Engineer
June 2012 – July 2014
Played a pivotal role in developing educational tools and platforms, focusing on usability, functionality, and product innovation to improve learning experiences.
- **DTITS India Pvt Ltd, India**
Software Developer
January 2011 – May 2012
Developed, tested, and maintained software applications, ensuring alignment with client specifications and timely delivery of projects.

Recent projects

Case Management

| | |
|--------|-------------------------------------|
| Client | APP NewPage - Professional Services |
|--------|-------------------------------------|

Santosh Kushwaha

| | |
|-------------------------|--|
| Duration | April 2017– Till now |
| Project Overview | NewPage is a Distributor Management System (DMS) developed by Accenture. It is a comprehensive software solution designed to streamline and automate distributors' business operations, especially in the FMCG (Fast-Moving Consumer Goods) sector. Global companies use the platform to efficiently manage their supply chain, sales, inventory, promotions, and distribution channels. |
| Technologies | C#, Core Dot Net, Azure, EF, Java Script, Web API, Angular, SQL Server, SSIS, SSRS, Power BI, DevExpress, SAP Crystal Reports. |
| Responsibilities | <ul style="list-style-type: none">• Led development and implementation tasks, including end-to-end system integration with third-party tools.• Designed and optimised SQL scripts, stored procedures, and SSIS packages for seamless data flow and reporting.• Implemented data synchronisation between mobile, web, and back-office systems using SQL Server, SSIS, and .NET.• Ensured seamless communication between systems through API-based integration and system integration workflows.• Conducted unit testing and code reviews and collaborated with cross-functional teams to ensure quality deliverables.• Developed and maintained reports using SSRS, Power BI, and SAP Crystal Reports to provide real-time distributor and sales performance insights.• Worked on features like order management, inventory tracking, and sales analytics, contributing to a robust and scalable DMS solution. |

Wakanow(<https://www.wakanow.com/>)

| | |
|-------------------------|--|
| Client | Wakanow, a leading travel and ticket-booking platform |
| Duration | Oct 2015 – Oct 2016 |
| Project Overview | Contributed to the Wakanow Project, a leading travel and ticket booking platform designed to provide seamless online services for booking flights, hotels, vacation packages, and other travel-related services across multiple destinations. |
| Technologies | ASP.Net MVC, C#, Angular, Bootstrap, JavaScript, CSS, SQL Server |
| Responsibilities | <ul style="list-style-type: none">• Focused on integrating flight and hotel package systems, working with third-party APIs for live data access.• Developed code and conducted unit tests to ensure a seamless user experience in booking management systems.• Integration of third-party APIs (Amadeus) to provide up-to-date information on flight and hotel bookings. |

Raritan Pharmaceuticals

| | |
|-------------------------|--|
| Client | Raritan Pharmaceuticals |
| Duration | Jul 2014 – Sep 2015 |
| Project Overview | Developed and enhanced core IT solutions to streamline pharmaceutical operations, focusing on compliance with FDA regulations and optimising manufacturing workflows. The project aimed to improve product traceability, regulatory reporting, and inventory management. |
| Technologies | ASP.Net MVC, C#, JQuery, EDI, Reporting tools, bootstrap, SQL |
| Responsibilities | <ul style="list-style-type: none">• Gathered and analyzed requirements, ensuring accurate translation into software solutions. |

Santosh Kushwaha

| | |
|--|---|
| | <ul style="list-style-type: none">● Focused on coding, unit testing, and ensuring adherence to best practices in software development.● Played a key role in automating EDI file processing and worked on enhancing reporting capabilities.● Ensured coding standards were followed and actively participated in code review processes. |
|--|---|

Online Video Monitoring System

| | |
|-------------------------|---|
| Client | Online Video Monitoring System |
| Duration | June 2012 - Jul 2014 |
| Project Overview | An Online Video monitoring system is a new way to screen job candidates. You design an interview questionnaire for each opening and invite candidates by e-mail. Candidates visit our website and record their answers to each question. Our system captures the interview video recording, ready for you to search, view, and score at your convenience. |
| Technologies | <ul style="list-style-type: none">● C#, Asp.Net, SQL Server, JQuery, Bootstrap, VLC Flash. |
| Responsibilities | <ul style="list-style-type: none">● Gathered requirements, conducted analysis, and provided accurate estimations for project tasks.● Developed and reviewed code to maintain quality and consistency.● Designed and managed databases to meet functional and performance needs. |

Community website

| | |
|-------------------------|--|
| Client | Doctors Community |
| Duration | Mar 2011 - Jun 2012 |
| Project Overview | A Web site to register clinics, hospitals and doctors. People can find the contacts through the database and schedule meetings with the contact person. |
| Technologies | C#, Asp.Net MVC, SQL Server, JQuery, BootStrap 3, HTML5 |
| Responsibilities | <ul style="list-style-type: none">● Participated in requirement-gathering sessions and translate business needs into technical specifications.● Handled coding activities, ensuring adherence to established standards.● Involved in database design and handling, improving application performance and usability |
